Special Lodging Note:

During the winter months, several of the motels close down for the winter season. Reservations can still be made by calling the local number directly and leaving a message. They check their messages and will be in contact regarding reservations. There is limited motel space available in Hill City, so make your reservations early. Because the COG members receive a discounted rate, reservations need to be made by calling the local motel direct number instead of the 800 number.
